

Youssef Emira

Penetration Tester

📍 Cairo, Egypt ✉ youssefemira1@gmail.com ☎ 01100424180 🔗 medium/youssefemira in youssef-emira
📺 joeemira

Entry-level Penetration Tester exploring the use of machine learning to enhance security testing, threat detection, and anomaly analysis. Experienced in web, API, and infrastructure penetration testing, including Active Directory. Passionate about applying intelligent automation to identify vulnerabilities and improve defensive strategies.

Education

University of Helwan

Jan 2021 - July 2026

BS in Communication and Computer Engineering

- GPA: 3.0/4.0

Experience

Trainee - HCIA-Security -Full-time

Cairo, Egypt

NTI and Huawei

July 2024 – Aug 2024

- full-time training focused on network security, firewall technologies, IDS, VPNs, and security management.
- Achieved a comprehensive understanding of enterprise-level security solutions by dedicating more than 200 hours to HCIA-Security certification preparation, resulting in enhanced skills for identifying potential vulnerabilities within network infrastructures.

Application penetration tester intern – Full-time

Cairo, Egypt

We Innovate

Aug 2024 – Oct 2024

- Completed comprehensive training in application penetration testing, focusing on both the web and Android platforms. Developed skills to identify, analyze, and mitigate security vulnerabilities.
- Web Application Security: Gained expertise in OWASP Top 10 vulnerabilities, including SQL Injection, XSS, CSRF, and broken authentication. Proficient in reconnaissance, vulnerability analysis, exploitation, and reporting.
- Android Application Security: Acquired knowledge in static and dynamic analysis, reverse engineering, and identifying common Android-specific vulnerabilities such as insecure data storage and improper cryptography implementation. Hands-on experience with tools like APKTool, JADX, and Drozer.
- Tools and Techniques: Practical experience with security tools including Burp Suite, OWASP ZAP, Nmap, and SQLmap for web applications, and APKTool, JADX, and Drozer for Android applications.

Certificates

certified AppSec Practitioner (CAP) certificate no :920388

Courses

- Google Cybersecurity Career Certificates: [credentials](#) [🔗](#)
 - Foundations of Cybersecurity — Play It Safe: Manage Security Risks
 - Connect and Protect: Networks and Network Security — Tools of the Trade: Linux and SQL
- eJPTv1 Prep -NETRIDERS.ACADEMY **Credential:** 3d55cacde006cd48
- Python 101 -TCM-academy **studied**
- PEH(practical ethical hacking) from TCM-security **studied**
- CCNA Security Cisco Certified Network Associate Security **studied**
- MCSA (Microsoft Certified Solutions Associate) **studied**
- HCIA-Security V4.0 as **Huawei intern**

Technical Skills

- **Web Development:** PHP, Fast-API, JavaScript, HTML, MySQL
- **API development using Fast API :** - Python, Asynchronous Programming, Pydantic, SQLAlchemy, and RESTful API design, Docker, Git
- **Programming:** C++, Assembly, Python and java.
- **Operating Systems:** Linux, Windows.
- **DevOps Skills:** Docker (containerization, deployment with Docker Compose) Basic CI/CD workflows, Git
- **Security Expertise:** Experienced in comprehensive penetration testing of web applications, APIs (black-box and white-box), and network infrastructure, including Active Directory environments.
- **Tools:** Metasploit, Nessus, Burp Suite, Nmap, Nikto, Hydra, sqlmap, Wireshark.
- **Network Security:** Creating secure networks involves configuring firewalls and setting up virtual private networks (VPNs).
- **Code Analysis:** Analyzing JavaScript, PHP, Java, and Python code to identify vulnerabilities and reviewing the source code for potential security issues.

Publications and Projects

- **Secure-API – Secure Web API Framework using FastAPI**
Tools: FastAPI, JWT, OAuth2, SQLAlchemy, SQLite, Docker, Pydantic, Postman, Burp Suite
Developed a RESTful API with JWT-based authentication and role-based access control using FastAPI. Integrated SQLAlchemy with a secure SQLite back-end, applied schema validation with Pydantic, and containerized the application using Docker. Conducted security testing with Postman and Burp Suite to evaluate against the OWASP API Top 10 vulnerabilities.
- **Medium** [↗](#) – Articles and study notes on cybersecurity and related topics.
- **GitHub** [↗](#) – Repository of cybersecurity projects, scripts and research.

Languages

- **Arabic:** Native
- **English:** fluent
- **German:** B1 Proficiency
